
3FT SONICWAVE®; COMPOSITE VIDEO CABLE

45430 | [C2G](#)

FEATURES & BENEFITS

Performing at the very highest level, the SonicWave interconnect is meticulously crafted to ensure full, accurate and interference-free delivery of critical video signals. Silver-plated oxygen-free copper (OFC) twisted-pair conductors and a nitrogen-foamed PE dielectric are purposely designed to deliver delicate video signals with perfect fidelity regardless of the cable length! The precision 75 Ohm video coaxial cable passes video signals with ultimate stability.

SPECIFICATIONS

GENERAL INFO

Color: Black
Product Series: SoniceWave
Type: Composite Video Cables
