

WIRELESS CONFIGURATION TOOL WITH USB

LMCT-100-2 | [Wattstopper](#)

FEATURES & BENEFITS

The LMCT-100 Wireless Digital Configuration Tool is a handheld tool for advanced remote configuration of any Wattstopper Digital Lighting Management (DLM) system. The tool enables system and device modifications via pushbutton, without ladders or tools, as well as easily duplicating settings between DLM local networks.

- Wireless advanced configuration capabilities for Digital Lighting Management systems
- Component of Digital Lighting Management integrated control systems
- Easy-to-read OLED screen
- Micro-USB port allows easy updating of firmware
- 2-way IR communication for data upload, download, confirmation and storage
- Easy-to-use navigation pad
- Configures occupancy sensors, switches, room controllers, photosensors and DLM relay panels
