
PLUG LOAD CONTROLLER

LMPL-201 | [Wattstopper](#)

FEATURES & BENEFITS

LMPL-201 Plug Load Controllers include a 20 amp relay for on/off control of connected outlets, and a high-efficiency switching power supply. They are part of a Wattstopper Digital Lighting Management (DLM) system, and enable energy-efficient control of plug loads.

- Plenum-rated controller with line voltage relay and switching power supply
- Plugs to other components using Cat 5e cable and RJ45 connectors eliminating wiring errors
- Plug n' Go automatic configuration and Push n' Learn for personalization
- Integral current monitoring of total connected load
- Accepts occupancy sensor signal for energy saving control of plug loads
