
HB SENSOR SERIES LENSES

HBL Series | [Wattstopper](#)

FEATURES & BENEFITS

The HB Sensor Series Lenses are available in four different configurations: HBL1, HBL1M, HBL2, HBL3, HBL7. Each lens is designed for a different application, mounting height or locations. Each HB Sensor Lens snap-mounts to any HB Series Sensor, and can be easily interchanged. Each lens is also available for wet or cold locations designated by a W in the catalog number. One HB Series Lens is required for each HB Series Sensor.

- Lenses utilize Fresnel technology
- Swap lenses to achieve different coverage patterns
- Lenses snap on for easy adjustment during installation
- Lenses easily rotate 90° to adjust coverage pattern
