
TRENCHDUCT

VA | [Wiremold](#)

FEATURES & BENEFITS

Trenchduct allows easy access to cabling after installation via removable cover plates. It features extremely large cable capacity and is available in many different widths and depth to accommodate all jobs. Trenchduct is installed above the Walkercell or Walkerdect system, flush with the finished floor.

- Compatible with Walkerdect and Walkercell systems
- Standard lengths are 1' to 5'
- Consult factory for custom options including heavy load applications and wire fill capacity
- **UL & CUL Standard 209**
- Trenchduct can be used with a Trench Access Hood to allow direct access to cables in Trenchduct body
