

Wiremold  
10AT Prewired Evolution™ Series Poke Thru Device, Surface Style Cover  
Part No. 10ATCPAA

Proof that bigger and better go hand in hand: Evolution Series 10inch Poke-Thru Devices offer more capacity, flexibility and versatility than any other poke-thru device on the market. Featuring eight-gangs of capacity, redesigned and easier to use covers, recessed connections below floor level, and enough internal wiring capacity to eliminate the need for a junction box. Evolution Series 10inch Poke-Thru Devices are ready to meet the marketinchs increased demand for more power, more A/V, and more communications.
