

Specifically designed for use with large and/or stationary appliances like refrigerators, dishwashers and washing machines, this GFCI outlet provides dedicated power and superior ground-fault protection while also limiting the nuisance tripping often caused by variable motor drives. Like all GFCI electrical outlets and plugs from the radiant® Collection, this device self-tests every three seconds for reliable safety and protection you can trust. Meeting the National Electrical Code requirements for ground fault protection in the home, GFCI wall outlets also make it easier to fix trips right where they happen – no more confusion or running to the breaker box. GFCI protection is required by code in bathrooms, kitchens, garages, basements, outdoor areas, and for any other outlets found within six feet of a sink or water source. GFCI outlets should always be used when replacing existing GFCI outlets during renovation. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

## Features & Benefits

Protects against shock caused by ground-fault occurrences. Unlike breaker alternatives, GFCI receptacles make it easier to fix trips with a reset button right on the device

Conducts an industry-leading automatic self-test every 3 seconds. If the device ever fails, the indicator light flashes to signal it should be replaced

Replaces a traditional outlet easily, in as little as 10 minutes

Protects children with a patented tamper-resistant shutter system that prevents improper insertion of foreign objects, complete with "invisi-shutters" for an invisible effect

Designed for dedicated use with large and/or stationary appliances, this GFCI outlet limits tripping caused from variable-speed drives

Equipped with proven SafeLock protection feature: if critical components are damaged and protection is lost, power to the outlet is disconnected

Extends GFCI protection to "downstream" outlets when used with feed-thru wiring configuration. Note: Will cut power to face and downstream outlets if wired incorrectly

Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection

## Specifications

### General Info

Product Line	Pass & Seymour	Color	White
Finish	Matte	UPC Number	785007381412
Country Of Origin	China	Number of Receptacles	2
Features	Self-Test	Outlet Type	GFCI, Self-Test, Tamper-Resistant
Application Sector	Commercial, Multi-Dwelling Unit, Residential	Wall Plate Included	Yes
Standard	RoHS, cULus	Warranty Type	1-Year Limited Warranty
Type	GFCI, Tamper-Resistant		

### Dimensions

Product Width US	1.73 in	Product Depth US	1.03 in
Product Height US	4.2 in		

### Listing Agencies / 3rd Party Agencies

cULus Listed	Yes
--------------	-----

### Additional Information

---

RoHS Compliant	Yes	Product Has Potential to Contribute to LEED	Yes
----------------	-----	---	-----

---

#### Technical Information

---

Seismic Tested	No	Is Tamper-Resistant	Yes
----------------	----	---------------------	-----

---

Connection Location	Back and Side	Number of Wires	3
---------------------	---------------	-----------------	---

---

Amperage	15 A	Number of Poles	Double Pole
----------	------	-----------------	-------------

---

Is Weather Resistant	No	Indoor/Outdoor	Indoor
----------------------	----	----------------	--------

---

Wattage	1875 W	NEMA Configuration Code	5-15R
---------	--------	-------------------------	-------

---

Wire Connection Type	Internal Pressure Plates, Screw Terminals	Voltage	125.0 V
----------------------	---	---------	---------
