

The anaerobic curing method for the Q-Series field terminating anaerobic connectors require no capital equipment, curing ovens, UV light sources, or expensive polishing machines. Terminate anywhere without worrying about power sources or charging batteries. The connectors feature a simple design allowing for lower unit costs, while advanced engineering helps ensure long life and saves on replacement costs.

## Features & Benefits

### Single mode or multimode

Simplistic offering reduces confusion with a one style connector that covers all multimode applications to include 62.5 micron, standard 50 micron, or laser optimized 50 micron for 10 Gigabit transmission, and single mode

### Minimal tools

A compact and economical tool kit contains all the common tools necessary to complete the termination.

### Reliable performance

Secure the installation of fiber using an adhesive and primer for a secure, worry-free termination.

### Pre-radius LC

Minimal polishing and consistent end-face geometry resulting in more consistent optical performance

## Specifications

### General Info

Product Line	Ortronics	UPC Number	662875607281
Country Of Origin	United States
