

Legrand keyed LC fiber solutions provide a simple and convenient way to physically prevent the user from making an unauthorized connection by blocking access to specific optical ports, whether they are at a workstation outlet or in a telecommunications room or data center. This is particularly important for government, finance, military and other facilities where multiple networks having different security level access requirements may be co-located.

## Features & Benefits

12 color/key configurations available	50/125 $\mu\text{m}$ and 9/125 $\mu\text{m}$ laser-optimized fiber types available
LC Keyed cadapters prevent improper connection of separate networks with common access points	50/125 $\mu\text{m}$ and 9/125 $\mu\text{m}$ laser-optimized fiber types available
Each LC secure adapter will mate only with same-color LC secure connector	High quality 1.25 mm zirconia ferrules used
Internal keying feature prevents tampering	High quality 1.25 mm zirconia ferrules used
1.6 in boot protects the splice for easy cable management	The solution to managing multiple networks with reduced risks

## Specifications

### General Info

Product Line	Ortronics	UPC Number	662875033875
Country Of Origin	United States
