

Legrand pre-polished keyed LC multimode and single-mode connectors provide the same ease of installation and high-quality performance as our line of standard LC pre-polished connectors. Up to twelve keys/colors of connectors are possible with unique physical keying configurations.

Features & Benefits

12 color/key configurations available	50/125 μm and 9/125 μm laser-optimized fiber types available
LC Keyed adapters prevent improper connection of separate networks with common access points	50/125 μm and 9/125 μm laser-optimized fiber types available
Each LC secure adapter will mate only with same-color LC secure connector	High quality 1.25 mm zirconia ferrules used
Internal keying feature prevents tampering	High quality 1.25 mm zirconia ferrules used
1.6 in boot protects the splice for easy cable management	The solution to managing multiple networks with reduced risks

Specifications
