

Pass and Seymour Hospital-Grade Combination Tamper-Resistant 20A Self-Test Night Light/GFCI, Red Part No. 2097HGNTLTRRED

Conducts an automatic test every three seconds, ensuring it's always ready to protect. If the device fails the test, the indicator light flashes to signal that the GFCI should be replaced. It also has our proven SafeLock™ Protection feature: if critical components are damaged and protection is lost, power to the receptacle is disconnected. For detailed Tamper-Resistant receptacle information, visit our Tamper-Resistant Receptacles page.
