

Specifically designed for use with large and/or stationary appliances like refrigerators, dishwashers and washing machines, this 20A GFCI outlet provides dedicated power and superior ground-fault protection while also limiting the nuisance tripping often caused by variable motor drives. Like all GFCI electrical outlets and plugs from the radiant® Collection, this device self-tests every three seconds for reliable safety and protection you can trust. Meeting the National Electrical Code requirements for ground fault protection in the home, GFCI wall outlets also make it easier to fix trips right where they happen – no more confusion or running to the breaker box. GFCI protection is required by code in bathrooms, kitchens, garages, basements, outdoor areas, and for any other outlets found within six feet of a sink or water source. GFCI outlets should always be used when replacing existing GFCI outlets during renovation. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

- Protects against shock caused by ground-fault occurrences. Unlike breaker alternatives, GFCI receptacles make it easier to fix trips with a reset button right on the device
- Equipped with proven SafeLock protection feature: if critical components are damaged and protection is lost, power to the outlet is disconnected
- Extends GFCI protection to "downstream" outlets when used with feed-thru wiring configuration. Note: Will cut power to face and downstream outlets if wired incorrectly
- Protects children with a patented tamper-resistant shutter system that prevents improper insertion of foreign objects, complete with "invisible-shutters" for an invisible effect
- Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection
- Conducts an industry-leading automatic self-test every 3 seconds. If the device ever fails, the indicator light flashes to signal it should be replaced
- Includes green LED illuminated power indication to confirm the receptacle is energized
- Replaces a traditional outlet easily, in as little as 10 minutes
- More color options available to fit any style, including finishes to match current hardware and lighting trends

Specifications

General Info

Product Line	Pass & Seymour	Color	Brown
Finish	Matte	Country Of Origin	China
Outlet Type	GFCI, Indoor, Residential, Self-Test, Tamper-Resistant	Application Sector	Residential/Commercial
Standard	RoHS, cULus	Warranty Type	1 Year from Day of Sale
Type	GFCI, Tamper-Resistant
