

Featuring a single gang, one opening six conductor modular jack. This versatile device supports up to three telephone lines and includes both RJ21 and RJ11 modular jacks. The decorator-style rectangular design fits standard single gang electrical boxes and can be used in multigang applications. Constructed with high-impact thermoplastic, the faceplate offers durability and resilience. The brass terminals with nickel-plated steel screws and washers ensure reliable connections. This device meets FCC Part 68 requirements, guaranteeing compliance with industry standards.

Features & Benefits

RJ21 modular jack	Supports up to three telephone lines.
Decorator-style rectangular design.	RJ11 modular jack.
Fits standard single gang electrical box.	May be used in multigang applications.
Face constructed of high-impact thermoplastic.	Brass terminals with nickel-plated steel screws and washers.
Meets FCC Part 68 requirements.
