

This SFP (mini-GBIC) transceiver module is designed for use with 3COM network equipment and is equivalent to 3COM part number 3CSFP92. This transceiver is built to meet or exceed the specifications of the OEM and to comply with Multi-Source Agreement (MSA) standards. This product is 100% functionally tested, and compatibility is guaranteed. The transceiver is hot-swappable input/output device which allows a Gigabit Ethernet port to link with a fiber optic network. OEM specific configuration data is loaded on to the EEPROM of the transceiver at the factory, allowing this transceiver to initialize and perform identically to an OEM transceiver. This transceiver may be mixed and deployed with other OEM or third party transceivers and will deliver seamless network performance. A list of compatible network equipment is available on the Specs tab of this page.

**Please Note:** Installing Legrand transceivers does not void your network equipment warranty. Network equipment manufacturers all have guidelines stating that warranty support on their products will not be affected by installing a Legrand or any third party transceiver.

3COM and the 3COM logo are trademarks or registered trademarks of Hewlett-Packard Development Company, L.P.. This product is not certified or endorsed by Hewlett-Packard.

## Specifications

### General Info

Product Line	Legrand	Color	Silver
UPC Number	757120669722	Country Of Origin	United States
Application Sector	Commercial/Industrial		

### Additional Information

RoHS Conformant	Yes	Product Has Potential to Contribute to LEED	Yes
