

This Dell® 430-4909 compatible SFP+ transceiver provides 10GBase-LRM throughput up to 220m over multi-mode fiber (MMF) at a wavelength of 1310nm using a LC connector. It is guaranteed to be 100% compatible with the equivalent Dell® transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. All Legrand transceivers are Trade Agreements Act (TAA) compliant.

## Specifications
