

Designed for retrofit and new construction, Evolution Series 6" Recessed Poke-Thru devices provide convenient access to power, communications, and audio/video services recessed below floor level - providing maximum device protection. With 3 Gangs of capacity, you will be able to configure services for the needs of your space. The low-profile metal covers are available in brushed aluminum, satin brass, satin nickel, and multiple powder-coated finishes designed to match any space. Evolution Series 6" Poke-Thru devices are the perfect fit for kiosks, meeting rooms, training rooms, classrooms, healthcare facilities or commercial buildings with open-space architecture. For carpet, tile, wood and laminate concrete floor coverings.

Features & Benefits

- Preassembled unwired poke-thru device:** Connect to conduits and install now, but save configuration and plate choices for later.

Recessed devices: All power, communications and A/V devices are recessed below floor level, providing maximum protection and device longevity.
- Step-on-it installation:** Quick and easy installation without the need for additional fasteners or a second installer.

Unique cover design: The cover opens a full 180 degrees with two unique spring-loaded slide egress doors to keep wires, connections and people safe.
- Evolution Series Poke-Thru Devices are available in multiple finishes:** (BK) black, (GY) gray, (BZ) bronze, (AA) brushed aluminum, (SB) satin brass and (SN) satin nickel to seamlessly match your environment.

Ideal for high foot traffic environments: Satin brass, satin nickel and brushed aluminum finishes offer a more durable, high-end look with a tougher clear powder coat.
- A flush style cover for tile applications** allows the Evolution Series Poke-Thru Devices to be adjusted to the same level as the top surface of the floor covering.

Open system for expanded compatibility: Accepts industry standard power, communications and A/V devices from most manufacturers including Legrand AVIP, Extron® and more.
- Plug load control up to 30 feet:** Tested with Pass & Seymour® Wireless RF Receptacles to control plug loads up to a distance of 30 feet when the cover is closed.

3 hour fire rating: Evolution Series Poke-Thru Devices use an intumescent material that maintains the fire rating of any floor for up to 3 hours, the longest of its type.
- The flush cover is designed to be used for tile or wood floors and in higher traffic applications, where a low profile is a must.

Specifications
