

radiant Collection  
radiant® Self-Grounding Tamper-Resistant Outlet, White  
Part No. 885TRSW

Take a step up from the standard. This tamper-resistant duplex outlet installs easily for the basic power every home needs, while elevating your space with the sleek, clean lines of radiant® for a sophisticated look. It is also designed to automatically ground to the electrical box when installed; ideal for older homes in highly-populated cities or regions where structures may not already be grounded for electrical safety. Not sure if your home's electrical wiring is grounded? Check your outlets! Outlets with slots for only two prongs are not grounded. For three-prong outlets, tester devices are available to confirm proper grounding, or you can call your local electrician for an inspection. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

## Features & Benefits

- Replaces any standard outlet with ease, in as little as 10 minutes. Features durable, high-impact resistant thermoplastic construction.
- Protects children with a patented tamper-resistant shutter system that prevents improper insertion of foreign objects, complete with "invisi-shutters" for an invisible effect. Ensures grounding for electrical safety with automatic ground clip.
- More color options available to fit any style. Complete the look with a sleek, screwless radiant® Wall Plate, and coordinate with other designer switches and outlets available from the radiant® Collection.
- Auto-Ground clip assures positive ground to metal box. For covering patents, see [www.legrand.us/patents](http://www.legrand.us/patents).
