

Junction bridges keep cables separated at tees and crosses in Cablofil cable management for optimum network signal integrity. The unique design creates smooth cable transitions to keep cables from kinking and bunching. Bridges mount in place using a BC1 Bridge Clip bolted to CE35 or EZT90/RADT90 junction hardware. Each bridge is predrilled with BH75 Bridge horn mounting holes and slots to secure cables with nylon zip ties.

Features & Benefits

- Keeps different cabling types separated in a single pathway at tees and crosses
- Mounts to any depth tray with included BC1 Bridge Clip and self tapping screws
- Durable steel construction - available in PG, GC, BL and PE finishes
- Use on CF54, CF105 and CF150 Cablofil cable management
- Fits Cablofil widths from 150 to 600

Specifications

General Info

Product Line	Cablofil	Finish	Painted
UPC Number	800388247833	Country Of Origin	United States
Application Sector	Commercial, Industrial	Type	Accessories

Dimensions

Product Width US	18.032 in	Product Weight US	8.74 lb
Product Volume US	0.43 cu ft	Product Depth US	23.563 in
Product Height US	1.75 in
