

## Cablofil CENTER DROPOUT -EZ (4D,,4W,,6H) [945245]

Part No. 945245

The Cablofil Center Drop Out (CDO) is designed especially for high capacity data centers, where a cable drop is often needed after cables are already in place. With a simple snap-on application, the CDO can be installed on your schedule, before or after the cables are set up, and remains tough enough to maintain support and bend radius of the heavy weight of copper and fiber optic cable bundles.

## Features & Benefits

Add the CDO to your wire mesh tray when you choose, Pre- or Post-Installation Options either before or after cabling is installed

The CDO comes in electrozinc, white, black or custom Variety of Finishes

colors to match your data center

The CDO snaps right on the wire mesh tray for a quick and Easy to Install

simple installation

2 Vertical Raceway Options Connect 4" wide vertical wire mesh easily

Mates with 4" wide Ortronics endcap and inner duct Side Rails

Provides a smooth surface for horizontal cable direction changes Smooth Transition for Cables

Provides support for full 90: transition bend ensures cables do Tie Down Slots not have any potential pinch points or kinks
