

Redesigned to be smaller, sleeker and easier to install, the QIS Power and Communication panel provides power to QIS shades and allows for wired third party integration.

Features & Benefits

- Provides protection against short circuit or overload to individual shades
- RJ-45 ports allow for wired control of QIS shades and wired switches
- Multiple QIS panels can be linked together (via RS485 ports) for control of up to 200 QIS shades and wired switches
- RS485 ports allow for hardwired integration with third party automation systems
- Power supply included

Specifications

General Info

Product Line	Shading Systems	Application Sector	Residential
--------------	-----------------	--------------------	-------------

Dimensions

Product Width US	4.4 in	Product Height US	1.7 in
Product Length US	6.9 in		

Additional Information

Product Has Potential to Contribute to LEED	Yes
---	-----

Technical Information

Number of Devices	1 Device, 8 ports in device, 2 communication ports	Input Voltage	240 V
-------------------	--	---------------	-------

Output Voltage

24 V
