

The On-Q DIN Rail bracket is a "top hat" DIN Rail supporting IEC/EN 60715 standard with 35mm width and 7.5mm height. The On-Q DIN Rail is capable of mounting directly into the On-Q low-voltage Plastic Enclosure family of products. The 6 inch, half width design allows for more versatility within the enclosure. The On-Q DIN Rail pairs well with the Nuvo P600 DIN Rail Players to create an enclosure-mounted whole home distributed audio system. Please refer to the NV-PDINKIT for additional components to complete this distributed audio solution.

## Features & Benefits

DIN Rail - Half Width	Top Hat design supporting IEC/EC 60715 standard with 35mm width and 7.5mm height
Half Width design provides greater mounting flexibility when building enclosure configurations	One DIN Rail supports the mounting of up to 3 Nuvo P600 Players

## Specifications

### General Info

Hazardous Materials	No	Color	Nickel
UPC Number	804428434535	Product Line	On-Q
Application Sector	Residential	Type	Mounting Bracket
Standard	RoHS (Restriction of Hazardous Substances Directive 2002/95/EC)		

### Additional Information

Prop 65 Warning Required	No	Prop 65 Warning Language	No
