

The adorne Whisper Dimmer uses a unique whisper-soft motion to toggle lights on and off, and a smooth slide to dim or brighten them. Use this modern dimmer on its own to control an incandescent or halogen light or fixture from a single location, or pair with a second dimmer switch to control a single light source from two locations. Made exclusively for use with screwless Wall Plates from the adorne® Collection, sold separately.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

Usable in both single-pole and 3-way applications.

For complete installation, device must be paired with an adorne® screwless Wall Plate (not included). Available in a range of contemporary colors and stunning finishes.

For use with dimmable incandescent/halogen bulbs or fixtures. Lets you control lights with a fluid, whisper-soft toggle motion (on/off) or smooth slide (dim/brighten).

More color options available to fit any style, including finishes to match current hardware and lighting trends.
