

Pass & Seymour Arc Fault Circuit Interrupter (AFCI) Receptacles are the latest innovation in electrical safety and a code-approved alternative to AFCI breakers. AFCI Receptacles protect against electrical fires by detecting arc faults and de-energizing the circuit.

For detailed AFCI receptacle information, visit our [AFCI Headquarters](#).

[Visit NEMA's website](#) for more information on all things AFCI.

Features & Benefits

Feed-through protection

Two back-wire holes per termination add wiring flexibility, eliminate pigtail and save box space.

Ground terminal back-wire for faster installation.

Auto-ground clip assures positive ground to metal box

Tamper-Resistant automatic shutter system prevents children from inserting objects such as hairpins or keys.

High-impact-resistant thermoplastic construction for superior strength and durability.

Specifications

General Info

Product Line	Pass & Seymour	Replaced by Part Number	AF202DFW
Color	White	Country Of Origin	China

Listing Agencies / 3rd Party Agencies

CSA Listed	Yes
