

Legrand
adorne® 27 in Modular Track
Part No. APMT27TM2

A base modular track for use with the adorne Under-Cabinet Lighting and Power System. Easily eliminate countertop clutter while also creating a more functional space within your kitchen. With its customizable modular design, you can create a unique under-cab solution that perfectly fits your home and needs. Modular tracks also available in 12" and 18" lengths.

Features & Benefits

Perfect for eliminating countertop clutter and creating a more functional kitchen counter space.

An under-cabinet base that allows you to add or change out modules with ease.

The 27" Modular Track includes one outlet module and one blank module, and can support up to two Linear LED Lights.

The adorne 27" Modular Track must be installed with an adorne Control Box.

Module options include standard and USB outlets, our Digital Music Kit and smart device cradles to eliminate countertop clutter.

Installs in 30 minutes or less. Mounts to the wall underneath kitchen cabinets. All required hardware is provided.

Pair with other modular tracks to create a full system custom-designed for your kitchen.

Modular Tracks available in various sizes, and plug seamlessly together for easy installation.
