

Shown with one Half-Size Paddle Switch

A modern twist on classic up-and-down switch control, the Paddle Switch lets you turn lights on and off with ease. Use this device on its own to control a light or fixture from a single location, or pair with a second switch or dimmer to control a single light source from two locations. Combine this half-size switch with other half or standard-sized devices to fit more functionality in a single Wall Plate.

Made exclusively for use with screwless Wall Plates from the adorne® Collection, sold separately.
