

adorne Collection
adorne® Motion Sensor Switch, Manual On/Auto Off, Graphite, with Microban®
Part No. ASVS12G4

From bedrooms to basements, this motion sensor switch is perfect for anywhere you might want to worry (or waste electricity) less. A conveniently modern light switch, it features combination control that allows you to manually turn lights on when entering a room, and then automatically turns the lights off for you when you leave. Use this device on its own to control a light or fixture from a single location one location, or combine with additional switches for controlling a single light source from multiple locations in 3 or 4-way applications.

This switch* features enduring Microban® antimicrobial technology that works to reduce the growth of bacteria, around the clock, for the lifespan of the product.

* Existing inventory of switches, dimmers and plastic wall plates from the adorne® Collection at some partner locations may not yet include Microban® protection. To confirm that a specific Legrand product is protected with Microban®, check that the exterior of the product packaging includes a green dot or a "Protected with Microban" label.

Made exclusively for use with screwless Wall Plates from the adorne® Collection, sold separately.

No antimicrobial efficacy claims are being made or are valid with respect to products sold in Canada.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

Usable in single-pole or 3-way applications. Must be paired with another SensaSwitch or SensaDimmer for 3-way control.

For complete installation, device must be paired with an adorne® screwless Wall Plate (not included). Available in a range of contemporary colors and stunning finishes.

Uses SensaSwitch technology to automatically turn lights off after you leave. (Auto shut-off can be set from 5 to 30 minutes after vacancy.)

More color options available to fit any style, including finishes to match current hardware and lighting trends.
