

adore Collection
adore® Motion Sensor Switch Manual On/Auto Off, Graphite
Part No. ASVS12G4

Perfect for anywhere you might want to manually turning lights on, but know they'll turn off automatically, such as children's bedrooms. The adore Manual On/Auto Off Motion Sensor Switch provides combination control by allowing you to manually turn lights on when entering a room, and automatically turn the lights off for you when you leave, thanks to motion-sensing technology. Use this device on its own to control a light or fixture from a single location one location, or combine with additional switches for controlling a single light source from multiple locations in 3 or 4-way applications. (four-way operation). Made exclusively for use with screwless Wall Plates from the adore® Collection, sold separately.

Features & Benefits

Installs in 15 minutes or less, fitting into an existing electrical box. No new wiring required for typical installation.

More color options available to fit any style, including finishes to match current hardware and lighting trends.

Complete the look with a stunning, screwless adore® Wall Plate, not included. Available in a range of contemporary colors and finishes. Coordinate with other designer switches & outlets.
