

Ortronics
Dual LED Work Light
Part No. CL002

The LED Work Light can be deployed in racks or cabinets to illuminate the work area, providing better visibility when installing or servicing equipment or terminating cabling. Designed with flexible mounting and positioning capabilities, this lighting solution provides focused illumination wherever it is needed and operation is simple, with a single switch to turn the light on or off. This light is UL, cUL and CE compliant and includes a power supply, multiple international power supply adapters, and mounting hardware.

Features & Benefits

Mounts both horizontally (19" EIA) or vertically

Low profile design does not restrict access or serviceability

Install anywhere in the cabinet or rack using hook & loop

Pivots fifty degrees in either direction to direct the light to the work area

Turned on with a single touch switch
