Wattstopper’s ELCU-200 Emergency Lighting Control Unit is a self-contained device that allows any standard lighting control device to control emergency lighting in conjunction with normal lighting in any area within a building.

**Features & Benefits**

- Eliminates energy waste caused by emergency lighting that is always on
- Integral push-to-test button activates emergency mode for a true test condition
- Connects to EMTS-100 Remote Test Switch or other input to activate emergency on from a remote location
- Operates as a control device or as a shunt
- Senses local single circuit power failure
- Zero cross switching technology for reliability and increased product life
- Compatible with Wattstopper occupancy sensors, daylighting controls, lighting control panels, and dimmers

**Specifications**

**General Info**

- **UPC Number**: 754182923052
- **Country Of Origin**: China
- **Product Line**: Wattstopper

**Dimensions**

- **Product Volume US**: 25.8 cu in
- **Product Width US**: 3.0 in
- **Product Height US**: 2.15 in
- **Product Weight US**: 0.43 lb
- **Product Depth US**: 4.0 in
