

On-Q
20-inch Plastic Enclosure with Trim Ring and Hinged Door
Part No. ENP2050NA

Ideal for a home with a smaller foot print the 20-inch plastic enclosure is constructed with a robust, wireless transparent ABS plastic material that is light weight, low-profile, Wi-Fi transparent, and designed to integrate wireless devices into a traditional structured wiring installation. The enclosure mounts easily for both surface and recessed applications, and the hinged door is equipped with extra venting along the vertical plane for superior heat dissipation. Enjoy easy and professional looking cable management for all your needs from voice and video to data as well as such as your router, Apple TV, Roku and more.

Features & Benefits

- Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference
- Universal mounting grid maximizes compatibility with 3rd party products without additional brackets.
- Staggered mounting tabs allow multiple enclosures to mount in adjacent stud bays.
- Lockable with provided screws
- Hinged door covers drywall hole for clean finish
- Cover adds 1.2" of depth for cable headroom and 3rd party device compatibility.
- Extra venting along the vertical plane of the door allows for superior heat dissipation.
- Cover is reversible with metal hinge that can attach to left or right side of enclosure.
- Tapered design allows enclosures and covers to stack for efficient transportation and warehousing
- UL listed.
