

On-Q
20-in Plastic Door and Trim Kit , 5-Pack
Part No. ENP20615

This kit includes a hinged door and coordinating trim ring for the 20-in Plastic Enclosure. Constructed of robust wireless transparent ABS plastic, it allows seamless integration of wireless devices into traditional structured wiring installations

Features & Benefits

- Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference
- Extra venting along the vertical plane of the door allows for superior heat dissipation.
- The Trim Ring's modular snap-together design saves valuable space and cost of bulky shipping and warehousing.
- Cover adds 1.2" of depth for cable headroom and 3rd party device compatibility.
- Trim Ring conceals drywall imperfections, creating a smooth transition to wall surface.
- Trim Ring can be installed to support left or right door swing.
