

On-Q
Discontinued | 42-in Plastic Enclosure with Hinged Door | SUB ENP4250NA
Part No. ENP4250

Constructed with a robust, wireless transparent ABS plastic material, this lightweight, low-profile enclosure is designed to integrate wireless devices into traditional structured wiring installations. The enclosure mounts easily for both surface and recessed applications, and the hinged door is equipped with extra venting along the vertical plane for superior heat dissipation.

Features & Benefits

Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference

Universal mounting grid maximizes compatibility with 3rd party products without additional brackets.

Staggered mounting tabs allow multiple enclosures to mount in adjacent stud bays

Lockable with provided screws.

UL listed.

Extruded cover adds 1.2" of depth for cable headroom and 3rd party device compatibility

Extra venting along the vertical plane of the door allows for superior heat dissipation

Cover includes metal hinge that attaches to left or right side of enclosure in seconds.

Tapered design allows enclosures and covers to stack for efficient transportation and warehousing
