Tamper-Resistant Floor Box Assembly - Two Gang for Wood Sub-Floors
Part No. FB2TRDR2B

Tamper-Resistant Floor Box Assembly, Two #8 duplex openings, Four threaded screw plugs. Includes two 3232 15 amp, 125 volt tamper-resistant duplex receptacles. Brass. For detailed Tamper-Resistant receptacle information, visit our Tamper-Resistant Receptacles page.

Features & Benefits

Tamper-Resistant shutters let plugs in, keep other things out.

Meets UL514(c) and NEC 314.27(c) requirements including scrub water for tile floors.

Large box flange rests on finished floor -- no adjustments needed.

Extra-deep design leaves plenty of wiring room.

Rugged diecast cover plates with durable nickel or brass finish.

Scrub water compliant without caulking, supplied with foam gasket and O-ring-equipped plugs.

Swing brackets mounting, great for tile floors -- eliminates drilling for mounting screws.
