

The FDP sensor series allows your lighting fixtures to participate in the internet-of-things (IoT) revolution. This sensor family features bi-directional communication between sensor and driver, enabling connected systems for smarter, more energy efficient and data-driven applications. The FDP sensor series is compatible with various intelligent drivers including Signify SR or many other connected drivers. By connecting to an intelligent driver, the FDP sensor series does not need its own power supply which will save cost and space inside the luminaire.

Features & Benefits

Two lens configurations for mounting heights from 8' to 40'

Bluetooth Sensor Configuration App allows easy commissioning from ground level

Manual reset button for security recovery

Continuous dimming provides energy code compliance

Stream-lined design for seamless fixture integration

IP66 rated housing

Specifications

General Info

Product Line	Wattstopper	Color	White
UPC Number	754182940967	Country Of Origin	China
