

Wattstopper
Discontinued - PIR Low Voltage Fixture Mount Sensor Open Collector Output, White
Part No. FS-205-LE

The FS-205 Low Voltage Passive Infrared (PIR) Fixture Sensor controls lighting based on occupancy. It is designed with a low-profile, architecturally pleasing appearance to easily integrate into lighting fixtures or a customized housing. The modular plug-in system utilizes an RJ45 connector on a low-voltage 6-ft.

Features & Benefits

- Replacement is newer version
- Small footprint fits easily in fixtures
- Fresnel lens for accurate detection patterns
- Hold-off daylighting control
- Low-voltage 6-ft. whip with an RJ45 connector for easy installation.
- Adjustable time delay (30 seconds to 30 minutes)
- LED indicator of occupancy detection for easy verification of coverage
- The product meets the materials restrictions of RoHS

Specifications

General Info

Product Line	Wattstopper	Replaced by Part Number	FS-205 VER 2
UPC Number	754182928224	Country Of Origin	China

Dimensions

Product Weight US	2.6 oz	Product Volume US	88.8 cu in
Product Depth US	1.2 in	Product Height US	1.0 in
Product Length US	74.0 in		

Technical Information

Sensor Type	Occupancy	Sensor Technology	Passive Infrared (PIR)
