

**Wattstopper**  
**Fixture Mount Sensor, PIR, Low Voltage. Low Profile**  
Part No. FS-205 VER 2

The FS-205 Low Voltage Passive Infrared (PIR) Fixture Sensor controls lighting based on occupancy. It is designed with a low-profile, architecturally pleasing appearance to easily integrate into lighting fixtures or a customized housing. The modular plug-in system utilizes an RJ45 connector on a low-voltage 6-ft.

## Features & Benefits

Low-voltage 6-ft. whip with an RJ45 connector for easy installation.

Adjustable time delay (30 seconds to 30 minutes)

LED indicator of occupancy detection for easy verification of coverage

The product meets the materials restrictions of RoHS

Small footprint fits easily in fixtures

Fresnel lens for accurate detection patterns

Hold-off daylighting control

## Specifications

### General Info

Product Line	Wattstopper	UPC Number	754182920167
--------------	-------------	------------	--------------

Country Of Origin	China
-------------------	-------

### Dimensions

Product Width US	8.0 in	Product Weight US	0.16 lb
------------------	--------	-------------------	---------

Product Volume US	48.0 cu in	Product Depth US	4.0 in
-------------------	------------	------------------	--------

Product Height US	1.5 in
-------------------	--------

### Technical Information

Sensor Type	Occupancy
