

Wattstopper
WattStopper® High Bay Acc HB3 Extended Module
Part No. HBEM3

The HBEM3 Extender Module attaches a High Bay (HB) Occupancy Sensor Module to the side of a fixture. With the extender module attached, the HB sensor can be adjusted up or down to ensure its view is not blocked by the fixture.

Features & Benefits

Maximum Extension: 4.75" (120mm)

Connects to metal or plastic fixtures via included snap-in chase nipples

Snaps together to protect sensor and fixture wires
