

The 1x8 (1 SC to 8 LC) POL Fiber Splitter, OS2 HDCA Cassette is a point to multipoint high density cassette designed to split 1 SC adapter to 4 LC duplex adapters over a Passive Optical LAN (POL) that provides the capability to securely deliver voice, data, and IP/broadband video. A POL is an alternative to a traditional Ethernet LAN and is widely accepted as an ideal replacement of old copper networks. A POL allows you to optimize your resources with a simple, space saving installation and provides benefits such as cost reductions, greater efficiencies, scalability and a clear upgrade

Features & Benefits

| | |
|--|---|
| Energy Efficiency: A POL uses unpowered optical components | High Density: HDCA cassette for use in HDJ panels |
| Versatile Installation: Cassettes load from front or rear of enclosure | Future Proof Infrastructure: Scalable and has a clear upgrade path |
| Simple Installation: A POL has a fraction of the equipment used in a traditional LAN | Cost Reduction: A POL requires less power, cooling, and maintenance |
| Single Fiber Two-way Transmission: Reduces cable bulk and increasing airflow in pathways | |

Specifications

General Info

| | | | |
|-------------------|-------------|--------------------|--------------|
| Product Line | Ortronics | UPC Number | 662875018285 |
| Country Of Origin | China | Application Sector | Commercial |
| Standard | TIA-568-C.3 | Type | Cassette |

Dimensions

| | | | |
|-------------------|---------|------------------|---------|
| Product Width US | 4.16 in | Product Depth US | 3.14 in |
| Product Height US | 0.69 in | | |

Additional Information

| | |
|-----------------|-----|
| RoHS Conformant | Yes |
|-----------------|-----|
