

Legrand keyed LC fiber solutions provide a simple and convenient way to physically prevent the user from making an unauthorized connection by blocking access to specific optical ports, whether they are at a workstation outlet or in a telecommunications room or data center. This is particularly important for government, finance, military and other facilities where multiple networks having different security level access requirements may be co-located.

## Features & Benefits

**Unique Key and Color Options:** Up to thirteen unique keying options/colors for Keyed front or Rear: Keyed LC adapters have the option to be keyed in the front only (user's side) or on both sides (user's and technician's) depending on the security requirement

**Compatibility:** All Legrand keyed LC fiber products are engineered to be compatible with other Legrand products to provide an end to end, data center to desktop solution.

**Keyed workstation adapter modules** are available for TracJack® and High Density Jack (HDJ) style Face plates and surface mount boxes for complete system design flexibility.

**Various Footprint Options:** Keyed workstation adapter modules are available for TracJack® and High Density Jack (HDJ) style Face plates and surface mount boxes for complete system design flexibility.

**Keyed LC adapters** have the option to be keyed in the front only (user's side) or on both sides (user's and technician's) depending on the security requirements.

## Specifications

### General Info

Product Line	Ortronics	UPC Number	662875029304
Country Of Origin	Mexico	Adapter Color	Brown
Type	Adapter		

### Dimensions

Product Width US	0.62 in	Product Depth US	1.61 in
Product Height US	0.77 in		

### Technical Information

Compatibility	HDJ, PHDHJU	Temperature Rating	20° - 75° C
Adapter Color	Brown	Connector Type	LC Duplex
Number of Fibers	2	Connector 2	Keyed
Connector 1	Keyed
