

The InFusion Controller II (DIN) is the "brain" of a Vantage Lighting Control System and is capable of supporting all Vantage user interfaces and supported connected devices. It is capable of providing delay-free control of large, complex systems. These requirements include instantaneous control, real time feedback, a highly scalable system architecture, and programming for individual system personalization. The InFusion Controller also provides seamless integration into a home or buildings subsystems, including shades and comfort control, which enhance the entire control experience. One InFusion Controller can support up to 120 WireLink stations and up to 120 RadioLink stations. The LCD display enables essential system information at a glance. The LCD display provides essential system information at a glance.

Features & Benefits

Three times faster firmware updating	Automatic backups of complete configuration each week to Micro SD card
Password protection for security	Email notification support for Yahoo, Gmail, Hotmail, and more
UL/CUL/CE compliant	Ethernet enabled for connectivity, expansion, and integration
Automatic network addressing via zeroconf	5 RS232 ports and 2 RS485 ports
Up to 120 low-voltage or 38 Equinox 40 stations, 120 wireless stations	

Specifications

General Info

Product Line	Vantage	Color	Black
UPC Number	804428068365	Country Of Origin	China
Works With	Bond Bridge, Bond Bridge Pro, CoolAutomation HVAC Solutions, Forbes & Lomax Keypads, Josh.AI, Meljac Keypads, Somfy SDN	Application Sector	Commercial
Type	Accessory		

Dimensions

Product Width US	5.0 in	Product Weight US	1.1 lb
Product Height US	3.0 in	Product Length US	7.0 in

Additional Information

RoHS Compliant Yes

Technical Information

Seismic Tested No
