

Vantage
EasyTouch II Keypad
Part No. KS14XE-LWNA

EasyTouch II is a modular keypad with contemporary aesthetics and functionality that complements every home. Available in one through five-button configurations, EasyTouch II's custom color palette allows you to match or mix finishes for trims, buttons, and faceplates. Customizable buttons feature fullrange RGB backlighting with a built-in diffuser. The backlight color indicates the status of the programmed button by providing the option to personalize the color for on, off, or other status feedback. And, due to Vantage's use of laser engraving, only the lettering on each button will be illuminated, maintaining the aesthetic appeal of the keypad.

Features & Benefits

Available in 1-5 customizable button configurations

Customizable buttons feature laser engraving in TrueType fonts

LED button backlighting available in any color to match your aesthetic

Specifications
