

TechChoice® fiber keystone jacks and modules The keystone footprint allows for the greatest flexibility in installation scheduling because its rear insertion into the faceplate allows the technician to complete the termination before, during and after the construction process. TechChoice modules are available in LC, SC, ST and FC, styles in order to suit any installation requirement.

## Features & Benefits

LC duplex fiber coupler allows connectivity to fiber network in a patchpanel or at a workstation

Rear loading, preferred mounting for panels

Rugged thermoplastic construction for secure fit

Compatible with Wiremold® pathway product

## Specifications

### General Info
