

An alternative to the traditional ethernet LAN is a Passive Optical LAN (POL). A POL allows you to optimize your resources by installing a simple, secure and cost-effective all fiber LAN. By using a passive optical splitter in place of a workgroup switch, a POL provides benefits such as cost reductions, greater efficiencies, scalability and a clear upgrade path.

Features & Benefits

Rear Load: Easy Installation

Snap-in module: Simple, secure installation Modular design: Flexibility in structured cabling system design

No special tools required: Reduced installation expense

Fully compatible with all TechChoice faceplates: Provides wide range of design possibilities

Specifications

General Info

Product Line	Ortronics	UPC Number	662875919148
Country Of Origin	Mexico	Application Sector	Commercial, Industrial
Standard	UL Standard	Type	Jack

Dimensions

Product Width US	0.55 in	Product Depth US	1.03 in
Product Height US	0.63 in		

Additional Information

RoHS Compliant	Yes
