

TracJack Module, Keyed Front Keyed Rear LC Duplex, Ceramic Lined, MM/SM, Flush Mount, Yellow
Part No. KTJ-2FALC2CC

Legrand keyed LC multimode and single-mode modules provide the same ease of installation and high-quality performance as our line of standard LC modules. Up to thirteen keys/colors of modules and connectors are possible with unique physical keying configurations.

NOTE: The keyed connector and adapter colors must match, or the keying will prevent them from carrying the signal. LC Keyed connectors won't mate with standard LC adapters.
