

The LCAP series of lighting control panels provide preconfigured architectural dimming and integration options for a wide range of commercial market applications. .

## Features & Benefits

- Modular, preconfigured solution from the factory. Just connect line voltage and load wires
- The included processor and networking capability provide an ideal platform for integration with Equinox touchscreen interfaces, plug load, emergency lighting, shades, and climate control
- Modular, preconfigured solution from the factory. Just connect line voltage and load wires
- System is expandable using other LCAP series main or secondary panels
- Panel includes terminal blocks for simple field wiring
- Space allocated for adding emergency lighting relays
- Adding a BACnet enabled controller allows the panel to be part of a BACnet system
- DMX-DALI supported with additional hardware (see DMX-DALI-GW)
- Auto backup: full project file and 52 week updates on included microSD card

## Specifications

### General Info

Product Line	Vantage	UPC Number	840624125747
