

Wattstopper
Architectural Dimming Panel - Main
Part No. LCAP32M

The LCAP series of lighting control panels provides modular pre-configured architectural dimming and integration options for a wide range of commercial market applications.

Features & Benefits

High Capacity forward phase dimming capabilities LCAP44x up to 48 loads per panel - up to 30,720 watts at 120V, 70,912 watts at 277V

Many combinations of dimming and switching available - forward phase, reverse phase, relays.

Panel includes terminal blocks for simple field wiring

Adding a BACnet enabled controller allows the panel to be part of a BACnet system

Auto backup: full project file and 52 week updates on included microSD card

LCAP32x up to 24 loads per panel - up to 15,360 watts at 120V, 35,456 watts at 277V

Multiple levels of secure network access to the system

Space allocated for adding emergency lighting relays

Powerful controller (LCAP32M or LCAP44M) offers integration using RS232, RS485, and Ethernet
