

Wattstopper
Auxiliary Architectural Dimming Panel - with Controller and Networking
Part No. LCAP44A

The LCAP series of lighting control panels provides pre-configured architectural dimming and integration options for a wide range of commercial market applications.

Features & Benefits

Panel can be configured for up to six LVOS-0-10-PWM modules each controlling up to four 0-10V, 4 PWM, and/or four high-voltage relay loads

Adding a BACnet enabled controller allows the entire panel to be part of a BACnet system

High-voltage barrier

DIN Rail cutouts allow for the addition of a DIN-Lite controller to make panel a standalone 0-10V system. Cutouts can also be used to add other DIN devices such as DMX-DALI

Panel includes easy to wire terminal blocks for simple field wiring

Custom fitted hinged door

Space allocated for adding emergency lighting relays

Includes four line voltage outlets to facilitate the addition of controllers, networking, or DMX
