Wattstopper

Architectural Dimming Panel - with Secondary Terminal Board and Networking

Part No. LCAP44HS

The LCAP series of lighting control panels provides modular pre-configured architectural dimming and integration options for a wide range of commercial market applications.

Features & Benefits

- Panel can be configured with one or two LVOS-0-10PWM modules each controlling up to four 0-10V, four PWM, and/or four high-voltage relay loads
- Powerful controller offers integration using multiple RS232, RS485, and Ethernet (LCAP44H)
- PoE (Power over Ethernet) switch for touchscreens and integration
- Panel includes easy to wire terminal blocks for simple field wiring
- Space allocated for adding emergency lighting relays
- Auto backup: full project file and 52 week updates on included microSD card
- The panel may also be configured to support up to two modules
- Adding a BACnet enabled controller allows the entire panel to be part of a BACnet system
- Multiple levels of secure network access to the system
- Custom fitted hinged door
- Low-voltage barrier
