

Wattstopper
Double pole relay module for LC8
Part No. LCDP-1

The LCDP-1 is a relay module designed for use and easy installation within the LC8-120/277 panel. The LCDP-1 is a double pole/single relay module with one 20 amp relay and voltage of 208, 240, or 480 VAC.

Features & Benefits

Non-volatile program memory retains all programming during power outages	Interchangeable single-pole and double-pole relay modules
Manual override of relays and channels via touchscreen interface	Pilot light output for each switch input
Eight universal switch inputs for low voltage switches, occupancy sensors or other devices to directly control each relay	Accepts most types of switch inputs
Compatible with LVSW-100 Series Low Voltage Switches and AS-100 Automatic Wall Switch	

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182931828
Country Of Origin	China		

Dimensions

Product Width US	3.0 in	Product Weight US	0.55 lb
Product Volume US	41.71 cu in	Product Depth US	4.4 in
Product Height US	2.59 in
