

Wattstopper
DLM Segment Network Wire, 4000 Spool
Part No. LM-MSTP-S4000

This type of wire connects low voltage devices (i.e., switches, occupancy sensors, photocells) to panels. It is #20 AWG wire that meets UL and NEC standards for Class 2 applications. Plenum rated wire meets plenum and riser requirements. Several types of multi-conductor low voltage wires are available for standard, pilot, locator, and multilevel switching or for connecting photocells to the LI control panels. This wire can also be used to wire relays remotely

Features & Benefits

Data communications wire provides communications between panels and signaling devices

Custom cut to specified lengths

Distance markings in foot increments

Low voltage component wire connects switches, sensors, and other low voltage devices to panels

Color-coded for streamlined installation

Specifications

General Info

Color	Green	UPC Number	754182938254
Country Of Origin	United States	Product Line	Wattstopper

Additional Information

Product Environmental Profile	Yes
